

20 JAN 1988

MEMORANDUM FOR: Chief, Policy and Plans Staff

FROM:

Chief, Policy and Plans Branch, PTS

SUBJECT:

PTS Items for the DDA Weekly Log
13 January - 19 January 1988

S E C R E T

25X1 4. TEMPEST Division representatives met with representa-
tives from Headquarters Security Division and Domestic Security
25X1 Branch on 13 January to discuss inspectable space requirements
for the [] Buildings compounds. The goal is to
improve the compound security so that buildings can be zoned.
[]

25X1 5. On 15 January, the Acting Chief, Domestic Security
Branch (AC/DSB), chaired a meeting with the Chief, Physical
Security Division (PSD) and Deputy Chief/PSD, and
representatives from the Intelligence Community Security Staff,
Special Security Center and Technical Security Group. During
this meeting, the Agency's position vis-a-vis utilization of
STU-III telephones in SCIFs was formulated. Our position will
be forwarded through the Office of Security principal
representative, AC/DSB, to the Facilities Protection Working
Group, in response to a requirement levied upon the Agency by
the chairman of the group. Our position will be coordinated
25X1 with the Office of Communications. []

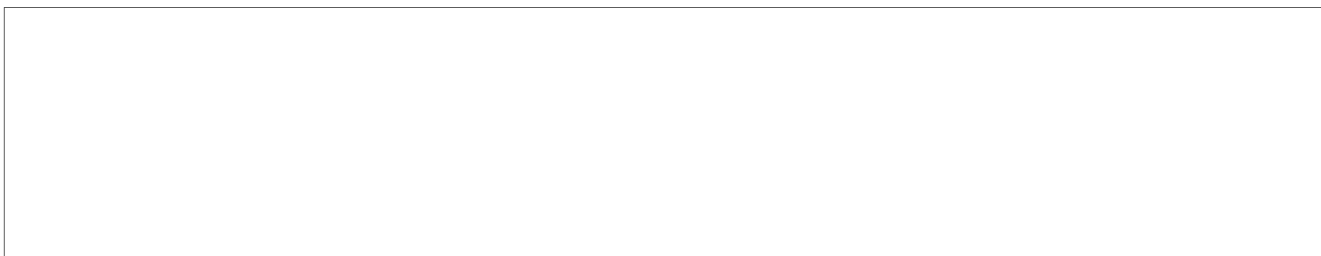

25X1 6. The third submission of the architectural drawings for
the DCI tunnel redesign has been reviewed by Security Equipment
Support Division, Headquarters Security Division and DCI
Security personnel. These drawings were about two months late
from the date promised by the Office of Logistics, Facilities
Management Division. Additional funds for this project remain
to be identified. []

25X1 7. Security Equipment Security Division, Special Programs
Branch (SPB), have reviewed the proposal for the installation
of physical security systems in the new Map Library Facility in
[] SPB has asked the vendor to change some of the
25X1 proposed equipment because not enough information was available/
25X1 known about its operating characteristics. []

25X1 8. Security Equipment Security Division, Headquarters
Systems Branch, has provided the New Building Project Office
with temporary transmission lines and annunciation capability
for fire detection systems in the OIT occupied areas of the New
Headquarters Building. []

25X1 9. Preliminary discussions were held with Chief,
Technical Security Countermeasures Division, concerning the
cross-training of technical personnel to assure they are better
prepared for overseas TDY and PCS assignments. An MOU will be
written concerning this agreement. []

25X1

11. Radio communications between the existing Headquarters Building and the New Headquarters Building--Chief, Security Duty Office met recently with the New Building Communications Program (NBCP) focal point who advised that an upgraded design (which calls for the construction of a shielded room and internal antenna system in the New Office Building) has been selected. A construction contract will be let on or about 1 February 1988. The project is expected to take 17 weeks and cost \$430,000. It was again stressed that the Office of Security needs a fully working communications system by the time employees begin to occupy the New Building. Barring unexpected additions requested by other components, the NBCP focal point indicated that a working system should be in place by June 1988.
